#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 16, 21 and 22 are presented for examination.

The amendments and remarks filed on April 7, 2005 have been received and entered.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16, 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lattes et al. (U.S. 6,040,485).

Lattes et al. teach the use of highly fluorinated perfluorocarbons in an ophthalmic formulation as a vitreous substitute. See claim 11. The above reference differs from the claimed invention in not mentioning an oligomeric compound. It would have been obvious to a person skilled in the art to use the teachings of Lattes et al., considering that the number of carbons and F of such patent read on an oligomeric perfluoro carbon compound.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16 and 21-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 16 and 21-22 are indefinite as to the phrase "one of" in claim 16 after "a)".  
The cancellation of such phrase is requested.

One skilled in the art would have been motivated to employ the teachings of the above reference, since it relates to the use of a highly fluorinated stable perfluoro carbon for ophthalmic use, as a vitreous substitute. The modification of carbon chain does not create a patentably distinct use in the absence of evidence to the contrary. Applicant has presented no evidence to the unexpected or unobvious nature of the claimed invention, and as such, claims 16, 21 and 22 are properly rejected under 35 U.S.C. 103.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zohreh A. Fay whose telephone number is (571) 272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on (571) 272-0602. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
